INDEX TO VOLUME 14, 1996

Author index

A

Abullarade C (see Edwards et al). 1996;14:62-7
All AC (see Kaufman and All). 1996;14:34-9

B

Bruni KR, Hoosier-Paty DM, Hoffman G. The quality of life of the limb-threatened patient after lower-extremity revascularization. 1996;14:99-103
Burton S (see Knaus et al). 1996;14:40-4

C

Calligaro KD, Miller P, Dougherty MJ, Raviola CA, DeLaurentis DA. Role of nursing personnel in implementing clinical pathways and decreasing hospital costs for major vascular surgery. 1996;14:57-61
Christensen CR, Stubbs DH. Erythromelalgia—a case study. 1996;14:18-20

D

Davis K (see Knaus et al). 1996;14:40-4
DeLaurentis DA (see Calligaro et al). 1996;14:57-61
DeRose G (see Lovell et al). 1996;14:104-7
Dougherty MJ (see Calligaro et al). 1996;14:57-61

E

Edwards R, Abullarade C, Turnbull N. Nursing management and follow-up of the postoperative vascular patient in a clinic setting. 1996;14:62-7

F

Fallin B (see Strider et al). 1996;14:91-8
Feinglass J, Slavensky R, Tang L. The Intermittent Claudication Research Study: vascular outcomes research using home health nurses. 1996;14:8-11
Felten S (see Knaus et al). 1996;14:40-4
Fobes P (see Knaus et al). 1996;14:40-4

G

Gray DE (see Lovell et al). 1996;14:104-7
Guarini J (see Strider et al). 1996;14:12-7
—— (see Strider et al). 1996;14:91-8

H

Harris KA (see Lovell et al). 1996;14:104-7
Hoffman G (see Bruni et al). 1996;14:99-103
Hoosier-Paty DM (see Bruni et al). 1996;14:99-103

I

Ivey J (see Strider et al). 1996;14:12-7
—— (see Strider et al). 1996;14:91-8

J

Jamieson WG (see Lovell et al). 1996;14:104-7

K

Kaufman MW, All AC. Raynaud's disease: patient education as a primary nursing intervention. 1996;14:34-9
Knaus VL, Davis K, Burton S, Felten S, Fobes P. Vascular nurse practitioner: a collaborative practice role in the acute care setting. 1996;14:40-4
Kron I (see Strider et al). 1996;14:91-8

L

Lacey KO. Subclavian steal syndrome: a review. 1996;14:1-7
Lewis CK. The clinical nurse specialist's role as coach in a clinical practice development model. 1996;14:48-52 (Guest editorial)
Lovell MB, Gray DE, Harris KA, DeRose G, Jamieson WG. The use of arm vein as an alternative conduit for lower-extremity bypass. 1996;14:104-7

M

MacLeod JA. Surveillance of vascular incisions: outcomes of a four-year unit-based quality-improvement program. 1996;14:85-90
Miller P (see Calligaro et al). 1996;14:57-61

N

Nunnelee JD. Decision making in prevention and treatment of arterial leg ulcers: use of patho-flow diagramming. 1996;14:72-8

R

Radnich JJ (see Roland and Radnich). 1996;14:45-7
Raviola CA (see Calligaro et al). 1996;14:57-61
Robinson T (see Strider et al). 1996;14:12-7
—— (see Strider et al). 1996;14:91-8
Roland CF, Radnich JJ. Screening a high-risk population for abdominal aortic aneurysm. 1996;14:45-7

S

Schroer S, Wilcox M. Relationship of study participation to health-related behaviors. 1996;14:68-71
Slavensky R (see Feinglass et al). 1996;14:8-11
Stotts NA (see Wipke-Tevis and Stotts). 1996;14:27-33
Strider D, Robinson T, Guarini J, Fallin B, Ivey J, Kron I. Marfan's syndrome: a family affair. 1996;14:91-8
——, ——, ——, **Ivey J.** Challenges with Takayasu's arteritis: a case study. 1996;14:12-7
Stubbs DH (see Christensen and Stubbs). 1996;14:18-20

T

Tang L (see Feinglass et al). 1996;14:8-11
Turnbull N (see Edwards et al). 1996;14:62-7

W

Wilcox M (see Schroer and Wilcox). 1996;14:68-71
Wipke-Tevis DD, Stotts NA. Nutritional risk, status, and intake of individuals with venous ulcers: a pilot study. 1996;14:27-33

Subject index

A

Abdominal aortic aneurysm; *see* Aortic aneurysm, abdominal
Acute care; *see* Critical care
Ambulatory care facilities
Nursing management and follow-up of the postoperative vascular patient in a clinic setting (Edwards et al). 1996;14:62-7
Amputation
The quality of life of the limb-threatened patient after lower-extremity revascularization (Bruni et al). 1996;14:99-103
Aorta
Challenges with Takayasu's arteritis: a case study (Strider et al). 1996;14:12-7
Marfan's syndrome: a family affair (Strider et al). 1996;14:91-8
Aortic aneurysm, abdominal
Screening a high-risk population for abdominal aortic aneurysm (Roland and Radnich). 1996;14:45-7
Arm
Subclavian steal syndrome: a review (Lacey). 1996;14:1-7
The use of arm vein as an alternative conduit for lower-extremity bypass (Lovell et al). 1996;14:104-7
Arterial occlusive diseases
Decision making in prevention and treatment of arterial leg ulcers: use of patho-flow diagramming (Nunnelee). 1996;14:72-8

B

Behavior
Relationship of study participation to health-related behaviors (Schroer and Wilcox). 1996;14:68-71

C

Cerebrovascular disorders
Screening a high-risk population for abdominal aortic aneurysm (Roland and Radnich). 1996;14:45-7
Clinic; *see* Ambulatory care facilities
Clinical nurse specialists; *see* Nurse clinicians
Clinical trials
Relationship of study participation to health-related behaviors (Schroer and Wilcox). 1996;14:68-71
Connective tissue diseases
Marfan's syndrome: a family affair (Strider et al). 1996;14:91-8
Cost-benefit analysis
Role of nursing personnel in implementing clinical pathways and decreasing hospital costs for major vascular surgery (Calligaro et al). 1996;14:57-61
Critical care
Vascular nurse practitioner: a collaborative practice role in the acute care setting (Knaus et al). 1996;14:40-4

D

Decision making
Decision making in prevention and treatment of arterial leg ulcers: use of patho-flow diagramming (Nunnelee). 1996;14:72-8

E

Eating
Nutritional risk, status, and intake of individuals with venous ulcers: a pilot study (Wipke-Tevis and Stotts). 1996;14:27-33
Editorial
The clinical nurse specialist's role as coach in a clinical practice development model (Lewis). 1996;14:48-52
Erythromelalgia
Erythromelalgia—a case study (Christensen and Stubbs). 1996;14:18-20
Extremities
Erythromelalgia—a case study (Christensen and Stubbs). 1996;14:18-20
Marfan's syndrome: a family affair (Strider et al). 1996;14:91-8

F

Fees and charges
Role of nursing personnel in implementing clinical pathways and decreasing hospital costs for major vascular surgery (Calligaro et al). 1996;14:57-61

G

Guest editorial
The clinical nurse specialist's role as coach in a clinical practice development model (Lewis). 1996;14:48-52

H

Health
Relationship of study participation to health-related behaviors (Schroer and Wilcox). 1996;14:68-71
Home nursing
The Intermittent Claudication Research Study: vascular outcomes research using home health nurses (Feinglass et al). 1996;14:8-11

I

In the literature
In the literature. 1996;14:109
Incision; *see* Suture techniques
Intake of food; *see* Eating

Intermittent claudication
The Intermittent Claudication Research Study: vascular outcomes research using home health nurses (Feinglass et al). 1996;14:8-11

L

Leg
Nutritional risk, status, and intake of individuals with venous ulcers: a pilot study (Wipke-Tevis and Stotts). 1996;14:27-33
The quality of life of the limb-threatened patient after lower-extremity revascularization (Bruni et al). 1996;14:99-103
The use of arm vein as an alternative conduit for lower-extremity bypass (Lovell et al). 1996;14:104-7
Leg ulcer
Decision making in prevention and treatment of arterial leg ulcers: use of patho-flow diagramming (Nunnelee). 1996;14:72-8
Limb-threatened patient; *see* **Amputation**
Lower extremities; *see* **Leg**

M

Marfan syndrome
Marfan's syndrome: a family affair (Strider et al). 1996;14:91-8
Mass screening
Screening a high-risk population for abdominal aortic aneurysm (Roland and Radnich). 1996;14:45-7
Models, nursing
The clinical nurse specialist's role as coach in a clinical practice development model (Lewis). 1996;14:48-52 (Guest editorial)

N

Nurse clinicians
The clinical nurse specialist's role as coach in a clinical practice development model (Lewis). 1996;14:48-52 (Guest editorial)
Nurse practitioners
Vascular nurse practitioner: a collaborative practice role in the acute care setting (Knaus et al). 1996;14:40-4
Nurses
Role of nursing personnel in implementing clinical pathways and decreasing hospital costs for major vascular surgery (Calligaro et al). 1996;14:57-61
Nursing management; *see* **Personnel management**
Nutrition
Nutritional risk, status, and intake of individuals with venous ulcers: a pilot study (Wipke-Tevis and Stotts). 1996;14:27-33

O

Outcome assessment
The Intermittent Claudication Research Study: vascular outcomes research using home health nurses (Feinglass et al). 1996;14:8-11

P

Pain
Erythromelalgia—a case study (Christensen and Stubbs). 1996;14:18-20
Patient education
Raynaud's disease: patient education as a primary nursing intervention (Kaufman and All). 1996;14:34-9
Peripheral vascular diseases
Screening a high-risk population for abdominal aortic aneurysm (Roland and Radnich). 1996;14:45-7
Personnel management
Nursing management and follow-up of the postoperative vascular patient in a clinic setting (Edwards et al). 1996;14:62-7
Pilot projects
Nutritional risk, status, and intake of individuals with venous ulcers: a pilot study (Wipke-Tevis and Stotts). 1996;14:27-33
Postoperative care
Nursing management and follow-up of the postoperative vascular patient in a clinic setting (Edwards et al). 1996;14:62-7
Practice development model; *see* **Models, nursing**
Pulseless disease
Challenges with Takayasu's arteritis: a case study (Strider et al). 1996;14:12-7

Q

Quality assurance, health care
Surveillance of vascular incisions: outcomes of a four-year unit-based quality-improvement program (MacLeod). 1996;14:85-90
Quality of life
The quality of life of the limb-threatened patient after lower-extremity revascularization (Bruni et al). 1996;14:99-103

R

Raynaud's disease
Raynaud's disease: patient education as a primary nursing intervention (Kaufman and All). 1996;14:34-9
Recent vascular nursing publications
Recent vascular nursing publications. 1996;14:53, 80, 109

S

Screening; *see* **Mass screening**
Skin temperature
Erythromelalgia—a case study (Christensen and Stubbs). 1996;14:18-20
Study, clinical; *see* **Clinical trials**
Subclavian steal syndrome
Subclavian steal syndrome: a review (Lacey). 1996;14:1-7
Suture techniques
Surveillance of vascular incisions: outcomes of a four-year unit-based quality-improvement program (MacLeod). 1996;14:85-90

T

Takayasu's arteritis; *see* Pulseless disease

U

Upcoming educational programs
Upcoming educational programs. 1996;14:21, 53, 79, 108

V

Varicose ulcer
Nutritional risk, status, and intake of individuals with venous ulcers: a pilot study (Wipke-Tevis and Stotts). 1996;14:27-33
Vascular surgery
Nursing management and follow-up of the postoperative vascular patient in a clinic setting (Edwards et al). 1996;14:62-7
Role of nursing personnel in implementing clinical pathways and decreasing hospital costs for major vascular surgery (Calligaro et al). 1996;14:57-61
Surveillance of vascular incisions: outcomes of a four-year unit-based quality-improvement program (MacLeod). 1996;14:85-90
Vasculitis
Challenges with Takayasu's arteritis: a case study (Strider et al). 1996;14:12-7
Veins, transplantation
The use of arm vein as an alternative conduit for lower-extremity bypass (Lovell et al). 1996;14:104-7
Viewbox
Viewbox. 1996;14:81, 110

W

Walking
The Intermittent Claudication Research Study: vascular outcomes research using home health nurses (Feinglass et al). 1996;14:8-11
